To,

Prof. M. Reza Mobasheri
Head of SASTech, High,Council (SHC) Chair,
8th SASTech 2014, President of KHI

Sub.: Regarding publication of Conference Proceeding

ISSN 2320 – 7639 International Journal of Scientific Research in Computer Science and Engineering

Dear Prof. M. Reza Mobasheri,

In response to your letter dated 30th September, 2013, we came to know about the 8th Symposium on Advances in Science and Technology to be held at 4 different times between Nov. 2013 to Feb. 2014. In principle, we are happy to extend our cooperation in all possible ways and agree to publish relevant papers in the journal “Information Sciences and Computing” subject to fulfillment of the following conditions:

1. First a board comprising of scholarly people across disciplines should be formed to look after the reviewing process of each article. We apply double blind peer-review process.
2. After acceptance, each article in MS-word format along with review report should be sent to the editorial office. Standard format can be downloaded from the journal website (<http://www.isroset.com>). Our staff will further format the papers as per journal requirements and before publication gallery will be sent to corresponding author only. So, it is mandatory for each paper to designate one as corresponding author with one working e-mail.
3. Papers will be published online only in open access mode. Anyone interested will be able to download freely. No hard copy will be provided to the authors.
4. The journal will ask for processing charges after acceptance as follows:

There are no any other hidden charges (such as per page, printing, color page)

For Standard Author	For ISROSET Members
For Foreign \$ 65	For Foreign \$50,
For Indian Rs 1550/-	For Indian Rs. 1150/-

5. The accepted papers will be published as a special issue and will be included in a regular issue. We are looking forward for further cooperation.

Best regards,

ISROSET
